THEATRE OF AMERICA... Among America's better theatrical venues are the fabulous Ten Eyck Theatres, which opened in
1953 with the opening of the Ten Eyck Theatre in New York City. The Ten Eyck was America's only privately owned theatre
(until that is, the newly renovated and now recently reopened Minskoff Theatre opened). Ten Eyck Theatres also boasts an
impressive array of smaller theatres, including the Empire Theatre in New York City, the Willow Grove Theatre in
Philadelphia, the "Foxtrot" in Baltimore, and the Gold Coast Theatre in Newark. The Ten Eyck's is New York City's only luxury
apartments theatre, and the first of its kind in America. The Ten Eyck theatre is a luxury apartment theatre. With an annual
operating budget of over \$1,000,000, it is the most luxurious apartment theatre in the United States. The experience of the Ten
Eyck Theatres is made up of over 20,000 square feet of plush, gilded, private living space surrounding a 250 seat theatre. As the
only private luxury apartment theatre in America, the Ten Eyck Theatres offers a luxurious home-like theatre, housing, and
surrounding amenities. When you come home to the Ten Eyck Theatres, you can come home to theatre, a home away from
home.The ApxAB toxin: revealing an unexpected role for a virulence gene in a non-sporulating model. The ApxAB toxin
system has been shown to be an important virulence determinant in the animal model of *Corynebacterium diphtheriae*, which
causes Diphtheria, the severe and sometimes fatal disease which has mainly been controlled through vaccination in the UK and

Europe. In this study, we investigated the role of ApxAB in *C. diphtheriae* virulence in the non-sporulating animal model of *Staphylococcus aureus*. In contrast to the results obtained with the diphtheriae model, it was found that the ApxAB toxin of *C. diphtheriae* did not show any influence on the virulence of
